

The "EURISCO e-bulletin" is a series of electronic bulletins that provide feedback to National Focal Points (NFPs) and serve as a dissemination vehicle for NFPs and others to put forward their contribution regarding plant genetic resources issues/themes. In order to ensure that the EURISCO Catalogue is sustainable and meets the NFPs' and other users' needs, everyone is invited to contribute to this e-bulletin. Thematic papers, ideas, comments, suggestions and questions are all [welcome](#).

This year, the EURISCO 2013 year-end overview and wrap up have been postponed to 2014, so that we can provide an accurate update of the ongoing changes in ECPGR and EURISCO once they are consolidated. The contribution received so far will be included in the upcoming edition of the EURISCO Bulletin.

We thank you all for your continuous collaboration and active participation in EURISCO and wish you all Season Greeting's and a Happy New Year in 2014!

Biodiversity International

Using and conserving agricultural and forest biodiversity for more nutritious, resilient, productive and adaptable food and agricultural systems.

Biodiversity International wishes all its partners and supporters a successful 2014
